

March 20, 2009

Dear Family and Friends of Daniel,

God brings people to Mission Aviation Fellowship through many different life experiences. It is amazing to come to understand the uniqueness of each pilot, each maintenance specialist, each teacher, each computer technician, or each administrator who seeks to serve God by using his, or her abilities through the ministry of MAF.

I have enjoyed getting to know Daniel as a candidate with MAF. Throughout my 32 years with MAF I have enjoyed getting to know many of the pilots and mechanics who are in service overseas. Watching and seeing how God works in their lives is incredible. Daniel is no different as he seeks what God has in store for him.

Following discussion with Daniel, we have come to a conclusion, together, that at this point in his missionary career, a delay in his departure for the field is very appropriate. I fully support this decision, and in no way does it mean that Daniel is giving up on MAF! On the contrary, I see this as a very exciting development, because I see God's hand evident in Daniel's life.

So, celebrate with me as we watch and see what God is doing!

Thank you for your interest and care for Daniel,

A handwritten signature in black ink that reads "Gene". The signature is written in a cursive, flowing style.
